

## Company Information

In order to utilize the experience in the Hitachi Group, the contract company MIT was established in 2014

We provide CAE (Computer Aided Engineering) technical support and consultation

We provide technical support with a local trading company and consult with manufacturing companies in the Republic of China and the People's Republic of China

Mainly is teaching customers how to use ADSTEFAN

ADSTEFAN is a casting simulation software manufactured by Hitachi Industrial Control Solutions Co., Ltd.

The company name MIT is the abbreviation of Maruyama Information Technology

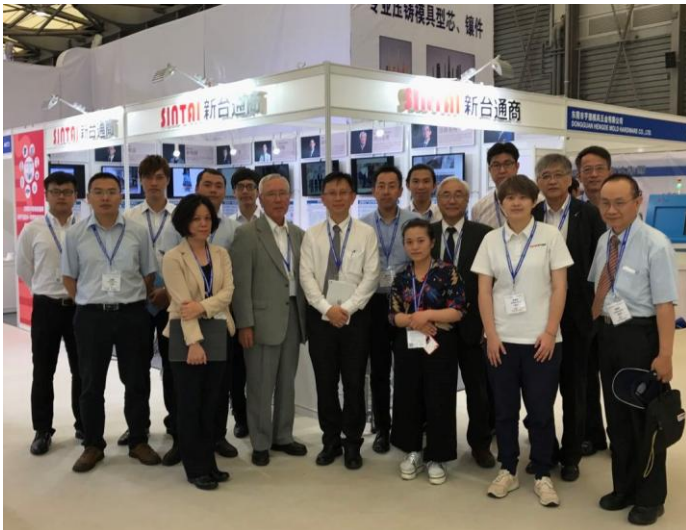

We will continue to provide ADSTEFAN and CAE technical support and consulting for domestic and foreign manufacturing companies

President: Satoshi Maruyama

## Performance

2014.Oct. Establishment MIT Limited Liability Company
